

# CLOPAY COMMERCIAL safe-t-stop™ chain hoist

The Clopay logo consists of a stylized 'C' symbol followed by the word 'Clopay' in a bold, sans-serif font, all contained within a yellow rectangular box.

The Safe-T-Stop™ chain hoist features an integral braking system that allows the door to move only when the user is actively pulling the chain. Unlike standard chain hoists that can allow the door to move out of control, this hoist allows users to operate the door more safely. The Safe-T-Stop™ chain hoist can be installed on new or retrofit applications and is ideal for vehicle service stations, restaurants, warehouses and drive-through doors.

## FEATURES AND BENEFITS:

### ENHANCED CONTROL

- Reduces the risk of mishandling the door.
- Reduces potential for the door to slam or chain to fly up.

### COMPACT DESIGN

- Brake is seamlessly integrated into the hoist mechanism.
- Requires only 3-1/2" of side clearance.

### EASE OF USE

- Brake engages when the chain is not actively pulled.
- Door stays in place when the chain is not engaged.
- Acts as a lock without the need for a chain keeper.

The Safe-T-Stop™ chain hoist is an easy upgrade to most manually operated sectional door application. The hoist is available in two kits that install in an about an hour. Kits come with either a 24 or 32 tooth sprocket that fits on a 1" solid shaft.

## HOIST KIT DETAILS

### KIT INCLUDES:

- Keyed drive sprocket with either:
  - A) 24 tooth sprocket – providing a primary reduction of 1.7 to 1 (or)
  - B) 32 tooth sprocket – providing a primary reduction of 2.3 to 1
- Both sprockets are 1" bore and will fit into a 3-3/8" end bearing bracket.
- Safe-T-Stop mounting bracket that can be mounted with flange in or out.
- #41 hand chain (24'6" is provided with each kit).

### INSTALLATION DETAILS:

- Kit includes enough chain to install on a torsion shaft located 14'0" floor to shaft center (for example, a 10'0" tall door with 36" of high lift).
- Additional 20' chain packs available for taller doors or lift.

*Not recommended for use with standard-lift or low headroom tracks.*

### 2-YEAR LIMITED WARRANTY
